

NEWSLETTER – WINTER EDITION **August 2007**

Dear Friends of Craftsmanship,

Welcome to the second edition of our newsletter. We hope to keep you up to date with our news and what is happening in the world of building

Website Launch

Our website has now been launched. www.craftsmanship.com.au. Wow – we are really impressed with what has been created. A lot of work has gone into the website with lots of pictures of recent work. More photos will be added over the next few months so have a look at what we are up to. We have been undertaking work at Doyles Bridge Hotel in Mordialloc. We are really proud of what we have achieved – some really fantastic work. Once this work is completed we will put the photos on the website for everyone to see.

Networks

Several years ago Karen undertook a Strategic Business Planning Course with the City of Kingston. This was a fantastic course and helped us put together our short and long term strategies for Craftsmanship Builders. As a result of that course Karen and some of the participants joined together to create a group that met on a fortnightly basis to discuss business issues. Well together the six of us have achieved some amazing results in our businesses. This group has been so successful that the City of Kingston is looking to duplicate what we do. Over the next few months I will keep you posted on our progress and if you are interested in learning about us or joining a similar group please contact us for details.

Office Furniture

The office furniture project has taken off. If you need any office furniture – at great prices – please give us a call or come and look at our range of goods - 0418 177 323.

Building Climate

It appears that many building companies having been quoting projects with consumers simply testing the market. With another interest rate rise this may caution consumers further. Despite the economic climate we are busy and are currently working on two projects – one in Mulgrave and another in Lower Plenty. These projects together with our ongoing work at Doyles Bridge Hotel will keep us working for sometime.

Earlier this year we lodged a submission for appointment to a Commercial Builders Panel with The City of Kingston. The application was a huge process which took weeks to put together. We are pleased to announce that the hard work has paid off and we were successful with our bid. We now have the opportunity to be invited to prepare quotations for a variety of building projects to be undertaken by Kingston Council over the next three years.

Well that is our news to date. We hope you have enjoyed our newsletter. Please have a look at our website and offer us some feedback via the contact page. We would love to hear from you.
